

MAXWELL

- A Real Automobile for \$750

There'll be only one automobile in the Grand Central Palace Show—all the other exhibits will simply be backgrounds for the Maxwell Star.

This is the acknowledged leader for 1914.

Visitors will give a casual glance at the "regulars," but you'll find the aisle blocked before the Maxwell exhibit.

Anticipating this, we will exhibit only one model—the "25/4." It's shown in the three types—5 passenger touring car—2 passenger roadster—and 6 passenger town car. Prices, \$750, \$725 and \$950 respectively.

See it or you won't have seen the crowning achievement of automobile designing and manufacturing.
